Technologies

LookerStudio – Wordpress – Unity 3D – Docker – AWS – Firebase – JWT Auth – MySQL – PostgreSQL – Pygame – SEI – GLPI – Trello – Power BI – Copilot – Elementor – Azure

Experience

Expertise Solutions, Remote — Full-Stack Systems Developer

JANUARY 2026 – NOW

Development and maintenance of logistics and tax-related projects, with a focus on platforms. I work on implementing new features as well as integrating frontend, backend, queues, automations, and operational workflows. My day-to-day responsibilities involve solving real operational challenges, improving system reliability, and supporting the technical evolution of products.

Systems Management (SENAC), Palmas - TO — IT Administrative Technician

MARCH 2025 – NOVEMBER 2025

System analysis and development for areas such as gastronomy, customer service, and the employee portal, among others. Development of systems using JavaScript frameworks such as **React** and **Next.js**, and **PHP** with the **Laravel** framework, in addition to frontend-backend and database integration with **MySQL**. Provided technical support and assisted with the procurement of technological products.

Instructor (Techinclusão), Palmas - TO — Web Systems Programming

OCTOBER 2024 – FEBRUARY 2025

Inclusion project for populations in socio-economic vulnerability in Taquaralto, where I taught classes on using frameworks such

as **React** and **Next.js**. Introduced **MySQL** database concepts, basic table queries, and guided students in the creation and development of a **chatbot** for various websites.

Systems Management (SEDUC), Palmas - TO — Analyst III

SEPTEMBER 2023 – FEBRUARY 2025

System analysis and development for the education sector. Developed systems using **JavaScript** frameworks such as **React**, **Next.js**, and Google **AppSheet**. Also developed dashboards powered by spreadsheet data using **Looker Studio**.

Barco Digital, Palmas - TO — Junior Systems Developer

FEBRUARY 2023 – AUGUST 2023

Developed systems and websites using **JavaScript** and **PHP** with **CSS** libraries such as **Tailwind** and **Bootstrap** for styling. Created forms and interfaces using **Laravel** and **Vue.js** frameworks; these sites were built for municipal councils, city halls, and private companies in Tocantins.

Public Prosecutor's Office of Tocantins, Palmas - TO — Intern

AUGUST 2021 – JULY 2022

Problem-solving and feature implementation in the **Athenas** system. **JavaScript** and **Python** were the main languages used, together with **GitLab** for version control.

Freelance Work

Global Studies and Latin America Group — System and website created to streamline and facilitate administrators' workflows. Developed with **Next.js** using **JavaScript** and **Headless WordPress**; included custom **plugins** and systems for post creation, dynamic tags, and comments.

Vet Delivery — Website and pages created using **WordPress** with image animations, card layouts, interactive header and footer menus, and plugin integrations such as **Elementor** and **WhatsApp** connectors.

Education

Bachelor's Degree in Computer Science, UFT – Palmas

JANUARY 2018 – DECEMBER 2022

Postgraduate Degree in Digital Game Design and Development, Cruzeiro do Sul Virtual

JUNE 2023 – JUNE 2024
